Volume 22 General index

ϕX174, intravenous, immune response to, impairment in inflammatory bowel disease and hyposplenism, **187**

Achalasia, lower oesophageal pressure in, effect of nitrates, potential therapeutic role of, **312**

Adenomatous residue in cancerous papilla of Vater, **1031**

ADRIAN, T E *See* CAMILLERI, M, COOPER, B T, *et al.*

Agarose gel technique in *in-vitro* studies of cellular and humoral chemotaxis in Crohn's disease, **566**

ALBERTI, A. *See* BORTOLOTTI, F, CADROBBI, P, *et al.*

Albumin and immunoglobulin A secretion in jejunum, measurement by segmental perfusion under occluding balloon, assessment of accuracy of, **371**

Alcohol consumption, excessive, biochemical and haematological tests for, with discriminant function analysis of results, **992**

Alcoholic and non-alcoholic liver disease, Mallory bodies in, common antigenic determinant in, **341**

—— cirrhosis, endotoxin and enterobacterial common antigen antibodies in, **849**

—— liver disease, autoimmunity to liver membrane lipoprotein and liver damage in, **149**

—— —— ——, Mallory bodies in, identification of cytoplasmic filament/cell membrane and unique antigenic determinants by monoclonal antibodies, **1**

AL-JUMAILI, I J. *See* LISHMAN, A H, AL-JUMAILI, I J, *et al.*

Alkaline phosphatase, small intestinal, presence in bile as evidence for enterohepatic circulation, **493**

p-Aminobenzoic acid. *See* PABA.

Aminopyrine, gastric clearance, as reflection of gastric mucosal blood flow or parietal cell function, experiments in man and dog, **997**

AMMON, H V. *See* TOWNSEND, W F, WALTER, L G, *et al.*

Anaemia, pernicious, complicated by diffuse enterochromaffin-like cell hyperplasia and multiple gastric carcinoids (*Case report*), **237**

Anal sphincter, external, hypertrophy of, in haemorrhoids, histometric study of, **45**

ANDRE, C, DESCOS, L, LANDAIS, P, and FERMANIAN, J: Assessment of appropriate laboratory measurements to supplement the Crohn's disease activity index, **571**

ANGEL, F. *See* SCHANG, J C, ANGEL, F, *et al.*

Anicteric liver disease, bile salt tests in, clinical value of, **141**

Anorexia nervosa, acute gastric dilatation with infarction and perforation in, fatal outcome of (*Case reports*), **978**

Antacid treatment, low-dose, for duodenal and pyloric ulcers, healing rate with, factors affecting, **97**

Antacids and cimetidine, long-term treatment with, effect in Barrett's oesophagus, **724**

Antibiotics, diarrhoea associated with, *Clostridium difficile* toxin in, **34**

Antibodies, mitochondrial, diagnostic of primary biliary cirrhosis?, **136**

——, monoclonal, in identification of cytoplasmic filament/cell membrane and unique antigenic determinants in Mallory bodies in alcoholic liver disease, **1**

——, ——, in immunohistochemical analysis of HLA (A, B, C) antigens in liver disease, **985**

—— to enterobacterial common antigen, and endotoxin, in alcoholic cirrhosis and other liver diseases, **849**

Antigen, protein, intestinal distribution and degradation of, differences in control and immunised rats, **1018**

Antigenic determinant common to Mallory bodies in alcoholic and non-alcoholic liver disease, **341**

—— determinants, cytoplasmic filament/cell membrane and unique, in Mallory bodies in alcoholic liver disease, identification by monoclonal antibodies, **1**

Antigens, hepatocyte membrane, altered, production in acute halothane-induced hepatic necrosis, role of oxidative metabolism of halothane in, **669**

——, HLA class I (A, B, C), in liver disease, immunohistochemical analysis with monoclonal antibody, **985**

Anti-peptic drug in trial for healing of duodenal ulcer, symptom relief and placebo effect in (*Clinical trial*), **323**

APRAHAMIAN, M. *See* SCHANG, J C, ANGEL, F, *et al.*

Apudoma, pancreatic, mixed, with excessive VIP and insulin, improvement of diarrhoea with metoclopramide in (*Case report*), **505**

Arbaprostil. *See* 15(R)-15-methyl prostaglandin E_2

ARBORGH, B A M. *See* BAMBER, M, MURRAY, A, *et al.*

ARCHER, L. *See* THOMPSON, D G, ARCHER, L, *et al.*

L-Arginine, induction of jejunal water and electrolyte secretion by, **108**

Bile acids and hydrogen ion, effect on fine structure of oesophageal epithelium, **306**
—— —— in serum, response to meals, ileal dysfunction in Crohn's disease assessed by, **948**
—— ——, inhibition of vitamin B_{12} binding by intrinsic factor *in vitro*, **270**
—— duct, common, granular cell myoblastoma of, treatment by biliary drainage and surgery (*Case report*), **70**
——, presence of small intestinal alkaline phosphatase in, as evidence for enterohepatic circulation, **493**
—— salt tests in anicteric liver disease, clinical value of, **141**
—— salts and laxatives, increased cell loss in jejunum induced by, **264**
Biliary cirrhosis, primary, and chronic active hepatitis, biliary lipids, faecal steroids, liver function, and hepatic orcein-stained copper-protein complexes in, **579**
—— ——, ——, and other chronic liver disease, periostitis and finger clubbing in, prospective study of, **203**
—— ——, ——, liver copper content and biliary excretion of copper in, response to penicillamine treatment, **901**
—— ——, ——, mitochondrial antibody diagnostic of?, **136**
—— ——, ——, portal decompression in, results of, **345**
—— drainage and surgery in treatment of granular cell myoblastoma of common bile duct (*Case report*), **70**
